Aspiring UI/UX Designer

## Objective

Highly motivated and detail-oriented aspiring UI/UX Designer seeking a training internship to apply foundational design knowledge and rapidly develop practical skills in a real-world team environment. Eager to contribute creativity and a strong work ethic to meaningful projects while learning from experienced professionals.

## Education

### KodeCamp – UI/UX Design Program

May 29 – Aug 2025 (Expected)

- Engaged in intensive bootcamp learning core UI/UX design principles.
- Developed skills in Figma, wireframing, prototyping, and usability design.
- Built practical knowledge of typography, color theory, and feedback-based iteration.

### freeCodeCamp – Responsive Web Design

Completed

- Gained foundational skills in HTML and CSS.

### Delta State University, Abraka

BSc. in Animal Science

## Skills

- **UI/UX Tools:** Figma
- **Design Principles:** Wireframing, Prototyping, Color Theory
- **Web Skills:** HTML, CSS
- **Soft Skills:** Time Management, Teamwork, Accountability

## Projects

### MedPal – Mobile App Concept (In Progress)

UI/UX Designer — Bootcamp Project

Tools: Figma, User Research

A mobile app to help users manage medication schedules, connect with peer support, and access affordable prescriptions.

- Designed intuitive user flows and information architecture.
- Created wireframes and high-fidelity prototypes using Figma.
- Conducted user research to inform and refine design decisions.

## Experience

### Tutor Web Development Intern

April 2025 – July 2025

Hamplus Hub, Abraka

- Taught beginner JavaScript, encouraging learning through patience and clarity.

- Worked with tutors to improve curriculum and delivery.
- Gained exposure to UI/UX design during a one-week internal training.

**Farm Manager**

*Abraka, Delta State*

*March 2022 – Jan 2024*

- Managed poultry farm operations: production, processing, and marketing.
- Maintained inventory and ensured consistent product quality.
- Balanced full farm responsibilities alongside academic work.
